

NVQ Level 3 Construction Contracting Operations

Is this course for me?

This NVQ Level 3 Construction Contracting Operations qualification is aimed at technical individuals working in a wide range of site or office based roles in the construction industry. Our unique approach can help you complete this in as little as eight weeks. It covers competency standards in Planning; Estimating; Surveying; Buying and Site Technical Support roles. If you have sufficient experience, but do not have the required NVQ qualification to register for your CSCS card then this is for you.

The CSCS card has become a national safety & skills standard for individuals and companies within construction industry and in order for Construction Companies tendering for Government, Local Authority and large developments where they are required to certificate their workforce and fulfil the Government's aim to ensure all competent construction workers are held on the CSCS register with their relevant level of competency.

The Process

- The process begins with a induction session to confirm that you are to be registered on the right qualification.
- Proof of your experience, much of it in the form of work related documents and photographs, is collected in a portfolio by either Drobbox, email or in a hard copy file
- A Visiting Assessor will review your portfolio of evidence with you, and carry out observations of you at work
- Your knowledge of your work role is captured through either written questions and answers, reflective accounts or professional discussion with your Assessor which is often the preferred route as in can be completed in half a day

Core mandatory units include:

- Operate health, safety and welfare systems
- Prepare programmes and schedules of work
- Develop and maintain working relationships of personal development
 - No other formal qualifications required.
 - Can be achieved without attending a College or taking an exams in a short period..
 - Provides pathway to apply for the Gold CSCS card
